## About Us

U3 Agrinet is a registered Ghanaian social enterprise engaged in agricultural production, aggregation and business development services in grains, vegetables and ruminants.

U3 Agrinet is located in the Upper East Region and operates an Ingrower and Outgrower farming model. Most of our beneficiaries are women, youth, Persons with Disabilities (PwDs) and Displaced groups.

We are practicing sustainable grains and vegetable farming and sourcing methods which encourage climate awareness for food security, jobs and income for actors, continuous learning and investment in improved technology.

## Vision

To create a better everyday life for many households in Africa

## Mission

Provide dignified, sustainable and rewarding jobs through an integrated agricultural support system for women, youth and persons with disabilities (PwDs)

## Core Values

- Trustworthiness in partnership
- Human development centered
- Technology and innovation
- Collaborating, Learning & adapting to climate change
- Teamwork
- Evidence informed decisions
